OBJECTIVE

I am a Conversion-Rate-Optimization and MarTech developer. I utilize optimization testing to build intuitive, high-performing digital experiences for your customers; while driving business efficiencies through Marketing Technology development - be it custom testing technology suites, or CRM integrations; I reduce the reliance and expense of third-party tooling and ensure that the data your business runs on is clean and drives increased financial returns.

Tonya Golden

FRONT-END DEVELOPER | UI/UX & CONVERSION RATE OPTIMIZATION

EXPERIENCE

TECHNICAL PERFORMANCE STATEGIST
ELITE INSURANCE PARTNERS
02/2021 – Current

I am the business owner of CRO, Technical Performance Strategy and website development (WordPress, ACF, HTML, CSS, JavaScript, PHP, and React.). I have built dynamic pages, implemented front-end enhancements, and optimized user journeys through data-driven analysis and A/B testing. My focus is on driving the highest ROI customers to the appropriate business channels – and automating the checkout and experience of lower ROI customers. I've led experimentation across a portfolio of the highest value Insurance websites in North America; using tools such as PostHog, GA4, VWO, and Datorama. Additionally, I have become a Claude Code professional, using it to quickly deploy a host of MarTech apps for automated testing and optimization of the largest privately owned portfolio of US insurance websites and call centers.

MARKETING SUPERVISOR
ELITE INSURANCE PARTNERS
07/2024 - 07/2025

I managed CRO activities and mentored a team of ~15 members while overseeing cross-functional projects from planning through delivery. Coordinated timelines, priorities, resources, and deliverables. Resolved project roadblocks and communicated progress, risks, and strategic recommendations to leadership and executive stakeholders.

FRONT-END DEVELOPER & GRAPHIC DESIGNER
BAKER WHITE INC.
05/2018 - 05/2020

I developed and maintained company websites using front-end development technologies and Shopify, implementing responsive website updates and SEO strategies. I also designed product labels and marketing graphics while collaborating with leadership and marketing teams to support digital initiatives, brand consistency, and online visibility.
